

## QUALITY CEMENTING FOR INCREASED PRODUCTION

### **A BETTER CEMENT JOB FOR THE LIFE OF YOUR WELL**

The Premiere Rotating Cement Head (RCH) will execute your reciprocating and rotating cementing process while conditioning your well during the cement job. Designed for longevity, the RCH features a no-leak swivel design that allows for continuous rotation over extended periods of time, resulting in a better cement job. Modular in design, the RCH can be built to address your unique cementing needs.

### **FEATURES: A STEP ABOVE THE REST**

#### **Versatility & Flexibility**

- Able to tie into CRT or top drive on-site at a moment's notice
- Compatible with all CRT and top drive systems

#### **No-Leak Swivel Design**

- Rotate at high RPM for extended periods of time with no decrease in reliability (maximum rotating speed of 80 RPM)
- Safe working pressure of 10,000 psi (68.95 Mpa)

#### **Quick Connects**

- Designed for ease of maintenance
- On-site break down and assembly in one hour

#### **Modular Configuration**

- Quarter turn plug release system
- Drop multiple plugs/balls in varying lengths/sizes
- On-site or facility plug installation with customer/cementer witness
- Compact in comparison to the competition

### **ADDITIONAL FEATURES & BENEFITS**

- 350 ton (317.51 metric tons) API 8C certified
- Significantly faster rig-up/rig-down time for decreased NPT
- All iron assembly from rig floor
- Broken down, rebuilt, and pressure tested prior to each job
- Multiple safety features
- Reported substantial increases in production
